Marvels in Miniature,

In a museum of curlosities at Salem, 1 there is preserved a common cherry se lowed and fashioned like a basket Within the basket are twelve tiny silver spoons, the shape and finish of which cannot be distinguished with the naked eye. Dr. Peter Oliver, who lived in England during the early part of the eighteenth century, tell of seeing a carved cherry stone which would be a wonder even in this age of fine tools an fire workmanship. The stone was one f a common cherry and upon it were cal the heads of 124 popes, kings, queens perors, saints, &c. Small as they must no authority of Prof. Oliver that with a good glass the heads of the popes and the kings ould readily be distinguished from the he queens and saints by their mitre crowns.
